

Figure 1: Structure (1) in monomer

Monomer of a polyisocyanate compound which has not less than three isocyanate groups contained in isocyanate component (b1)

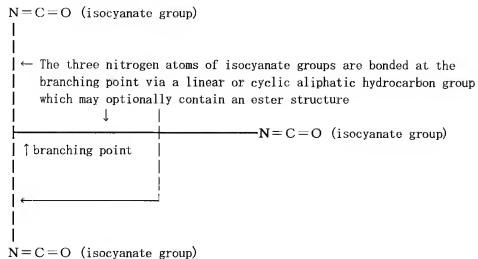

Figure 2: Reaction from monomer isocyanate component (b1) to the polymer resin

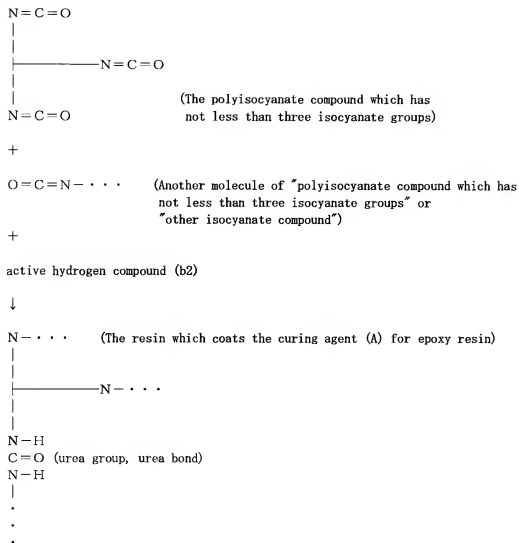

Figure 3: Structure (1) in polymer (resin which coats the curing agent (A) for epoxy resin)

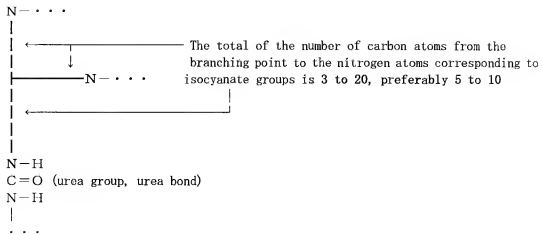

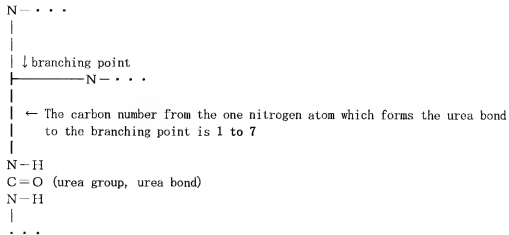

Figure 4: The structure of the Examples of Hosokawa (JP 2000-230032)
